INDIANAPOLIS:

SAMUEL M. DOUGLASS, STATE PRINTER.

1867.

I 6
1861/25
v. 7

Action of the Legislature of Indiana in relation to the Report of the Adjutant General.

IN THE HOUSE OF REPRESENTATIVES, }
THURSDAY, December 21, 1865. }

Hon. Mr. COWGILL, from the special committee appointed to act with a like committee on the part of the Senate, reported a proposition from the State Printer offering to print and bind 4,500 copies of each volume of the Report of the Adjutant General, in a style corresponding with Volume II, already published, furnishing paper and all materials, at \$1.90 per volume; with a resolution, prepared by the joint committee, accepting said proposition and providing for the sale and distribution of the Reports, which resolution had also been reported to the SENATE and adopted by that body.

FRIDAY, December 22, 1865.

On motion of Hon. Mr. BRANHAM, the concurrent resolution of the Senate, relating to the publication of the Report of the Adjutant General was taken up.

The resolution accepts the proposition of the State Printer, and authorizes the sale and distribution of the Reports as follows: Fifteen hundred copies of each volume to be sold by the State Librarian at their cost price—one dollar and ninety cents per volume—the proceeds to be paid into the State Treasury; one copy to be distributed to each Township Library; one copy to each County Clerk, Auditor, and Recorder, to be retained in their respective offices for reference; one copy to each County and Public Library in this State; one copy to the Adjutant General of each State and Territory; one copy to each State Library; one copy to each member of the present General Assembly; fifty copies for the use of the Departments at Washington City; twenty copies for the use of the State officers; one copy to each of the leading governments of Europe, to be forwarded through the officers of the United States government; and the remaining copies to be deposited for preservation and safe keeping in the State Library.

Which resolution was agreed to.

NOTE.

IN the preparation of this volume, access has been had to the official rolls, returns, reports of hospitals and rebel military prisons, and to such other documents as could be reached. Every effort has been made to secure accuracy in names, dates and facts, and especially to show *what became of the men*. It will be seen, however, that among the 50,000 soldiers, whose names are herewith published, many are *unaccounted for*. This arises simply from the fact that the information necessary to complete their military history is not in the possession of this office and could not be obtained.

Officers and soldiers who may be able to furnish reliable data to supply the omissions referred to, are respectfully requested to communicate the same to the undersigned with as little delay as possible.

W. H. H. TERRELL,
Adjutant General Indiana.
